

Animal Story

Write a story about an animal and its behavior. It may be an animal you know, such as a pet, or one you have observed, such as a butterfly. Use details to create a mood you think matches your subject.

Drafting Tips

- State the problem or event you will describe. What events make up the beginning, middle, and end?
- Choose a mood and list words that go with that mood.
- Write dialogue that sounds like natural speech.
